

# Barton Combined Sewer Overflow (CSO) Control Project

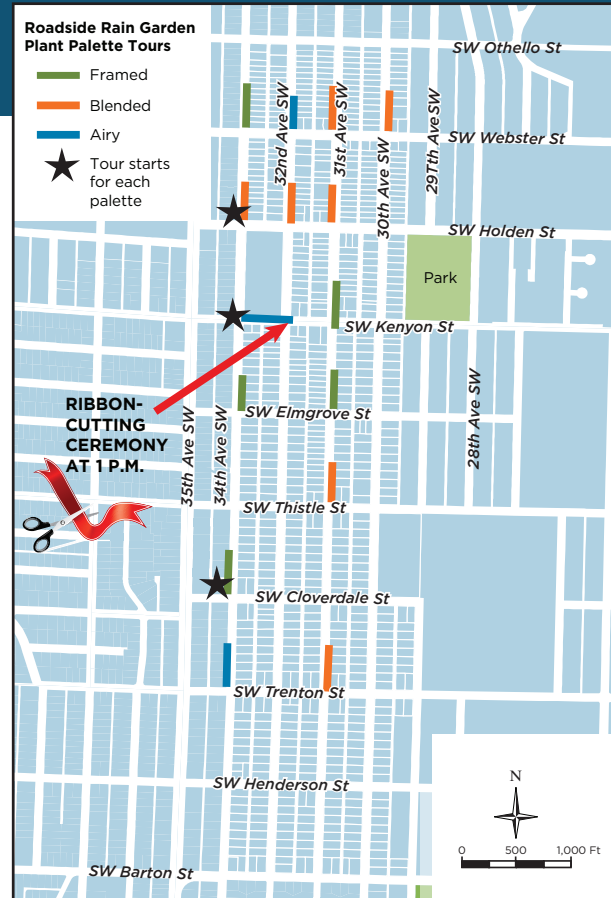

***We're finished! Join us to celebrate Sunday, September 20 from 1-4 p.m.***

We're cutting the ribbon on the new roadside rain gardens in your neighborhood. After the ribbon cutting, tour three recently planted blocks and learn about the different plant selections. Team members will be on those blocks starting at 1:30.

***Look at the map to decide where to go.***

## Join us to learn about:

- The diverse, attractive roadside rain garden plants
- How the plants benefit your neighborhood and Puget Sound
- How we will maintain the roadside rain gardens
- How you can join the RainWise program and install rain gardens or cisterns on your property
